

Joudy Dawalibi

Software engineer | Front-end Developer
Aleppo, Syria | joudydawalibi9@gmail.com | [GitHub](#) | [Portfolio](#) | [LinkedIn](#)

Summary

I am a passionate and detail-oriented Front-end Developer with a strong foundation in modern web technologies, particularly React.js. I excel at building responsive, intuitive, and high-performance user interfaces. With hands-on experience in API integration, UI/UX implementation, debugging, and performance optimization, I strive to create seamless and engaging user experiences. I am continuously driven by a commitment to learning, innovation, and delivering high-quality solutions.

SKILLS

- **Front-end Technologies:** HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS
- **Development Tools:** Git, GitHub, Axios
- **Programming Concepts:** Object-Oriented Programming (OOP), Data Structures
- **Other Skills:** Responsive Design, API Integration, Code Refactoring, UI/UX Best Practices

Projects

-E-commerce Platform

[GitHub](#)

•Website:

Building a comprehensive e-commerce platform using React, Bootstrap, and Axios, with backend integration. The site includes secure user authentication (signup/login), categorized product listings, top-selling and discounted products, product ratings, cart functionality, and a complete user-friendly shopping experience.

•Admin Dashboard:

An Admin Dashboard is also implemented, featuring full CRUD operations for users, categories, and products (including image uploads with progress indicators), pagination, and dark/light mode support.

- Online Recruitment Platform

[GitHub](#)

•Website:

A web-based platform that connects job seekers with employers, allowing candidates to search and apply for jobs while enabling businesses to post vacancies and manage applications efficiently.

•Admin Dashboard:

Offers comprehensive tools for managing users, job postings, and platform content, along with monitoring features to ensure smooth operations and policy compliance.

•Employer Dashboard:

Allows employers to create and manage job listings, review applications, and communicate with potential hires through a user-friendly interface.

Education

Bachelor's Degree in Informatics Engineering | Aleppo University | 2019 – 2024

Completed a rigorous five-year program covering core topics including Compiler Design, Algorithms, Data Structures, and Databases. Gained hands-on experience with multiple programming languages such as C++, C#, Java, and SQL. Delivered several academic and personal projects demonstrating coding proficiency and software development skills.

Language Skills

- Arabic: Native , English: Intermediate
